

ASPHALT HOTBOX RECLAIMERS PRODUCT CATALOG

KM INTERNATIONAL

ASPHALT HOTBOX RECLAIMERS

For close to 40 years KM International has been manufacturing and distributing the industry's most diverse and innovative line of asphalt hotbox reclaimers. KM International clients include municipal organizations at the local, state, and federal level as well as private contractors of all sizes.

MAINTAINING ASPHALT TEMPERATURES

KM asphalt hotboxes are thermostatically controlled heating device capable of maintaining hotmix or cold patch asphalt at the users desired temperature setting for up to a 48 hour period through the use of an internal heating system (diesel or propane).

ASPHALT RECLAIMING

All KM asphalt hotboxes are reclaimer type units meaning they have the ability to reheat bulk stored or excess asphalt from a cooled state back to the users desired temperature, usually 325-350F. The reclaiming process is typically a 8-12 hour process depending on the amount of material being reclaimed. After that time period the hotmix will be the same temperature and consistency as when it was picked up from the plant.

SKID MOUNTED ASPHALT HOTBOX RECLAIMERS

KM 4000S 2 TON SKID MOUNTED ASPHALT HOTBOX RECLAIMER

| | KM 4000SXPX | KM 4000SDXD |

KM 1000S 1/2 TON SKID MOUNTED ASPHALT HOTBOX RECLAIMER

| | Dimensions | Weight | Fuel Source |
|-------------|-----------------|---------|-------------|
| KM 1000SXPX | 59" x 34" x 34" | 375lbs. | Propane |

STANDARD FEATURES

- Thermostatically Controlled
- Triple Wall Constructed
- 3" of High Efficiency Insulation
- Cantilever Style Loading Doors
- Easy Mounting
- Gravity Fed Shovel Door(s)

TRAILER MOUNTED

ASPHALT HOTBOX RECLAIMERS

STANDARD FEATURES

- Thermostatically Controlled
- Triple Wall Constructed
- 3" of High Efficiency Insulation
- Channel Steel Construction
- 52 Degree Dump (Option)
- Gravity Fed Shovel Door(s)

KM 4000T 2 TON TRAILER MOUNTED

SPECIFICATIONS

| | Dimensions | Weight | Fuel Source | BTU's | Axle(s) | Shovel Doors | Trailer Frame | Dump |

KM 8000T & KM 2-18X IR COMBO UNIT

This all in one unit combines the KM 8000T asphalt hotbox with the KM 2-18X infrared heater mounted on the front of the unit making for an all in one asphalt maintenance package.

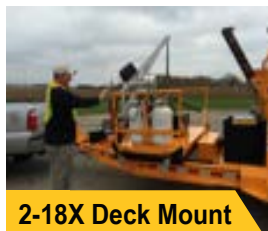

ASPHALT HOTBOX OPTIONS

Skid Mounted Hotbox Options

Extended Propane Pigtails

Propane Bottle Rack

Trailer Mounted Hotbox Options

Extended Trailer (Adds 2 Ft To Trailer)

Heated Shovel Deck

Plate Compactor Mount

Wash Down Spray System

Tack Tank Skid

Lithium Iron Battery

60lb or 100lb Propane Cylinders

Roller Cradle Mount

5 Gallon Bucket Holder

*Consult a KM representative prior to selecting options as some options may not fit on certain models.

PURCHASING OPTIONS

KM International is an awarded Sourcewell contract holder and KM's entire equipment line can be procured using the Sourcewell contract.

KM International has partnered with Stearns Bank to offer our customers competitive financing options.

WHAT SETS KM HOTBOXES APART?

LONGEVITY

Each employee at KM takes pride in what they do and that is why KM has gained an industry reputation for manufacturing the industry's most reliable line of asphalt hotboxes. The average life expectancy of a KM hotbox is 10 years but it is not uncommon to see units 20+ years old in the field still.

INNOVATION

Through continual process improvement, KM continues to push the limits of what our equipment can achieve. Combining proven methods with new technology enables KM to continue to manufacturer the industry's most trusted line of asphalt hotbox reclaimers.

RELIABILITY

Key design features, quality craftsmanship, and quality components make a KM hotbox low maintenance with most customers spending less than \$500/year in maintenance cost.
