

LIQUID FUSION

ASPHALT REJUVENATOR

BUY NOW

WHAT IS LIQUID FUSION?

Liquid Fusion is a special blended asphalt rejuvenating agent specifically designed to be used during the infrared repair process.

Liquid Fusion replenishes the chemical properties asphalt has lost through oxidization.

Using Liquid Fusion will prevent premature raveling of your infrared patch.

RECOMMENDED USE

- ✔ Liquid Fusion is mixed 50/50 with water.
- ✔ Liquid Fusion can be dispensed using a chapin sprayer.
- ✔ Apply .12 gallons per sq.yd. or a heavy mist throughout the entire repair area paying special attention to the edges of the repair.

ORDERING INFORMATION

Liquid Fusion is packaged in 5-gallon buckets. Keep in mind that you need to mix it in equal parts with water, so 5 gallons effectively gives you 10 gallons.

Liquid Fusion is \$86.25 per 5 gallon bucket.
